Donaldson Gas Turbine Systems

Filtration Ltd is proud to announce our new offering – as the only authorised UK distributor of Donaldson Gas Turbine filter elements and cartridges. Donaldson is a leading supplier of engineered air intake systems for gas turbines and industrial compressors, for both new and retrofit applications. Donaldson's comprehensive technical capabilities, extensive global network, and unrivalled operations and maintenance support help optimize system performance and reduce total cost of ownership in ways no other supplier can match.

Donaldson's wide breadth of first-fit and aftermarket products and services provide the convenience of a single supplier and one contact for service and trouble-shooting.

Our nationwide team of Technical Sales Engineers are on hand to work closely with you to meet your filtration requirements – to save you money and time, and to help you ensure maximum efficiency.

Please visit our website for further information or send an enquiry to derek.campion@filtration-ltd.co.uk.

Executive Hire Show 2018

Our team attended the annual Executive Hire Show in Coventry and exhibited our range of products to an impressive 2,489 visitors. The show was a great success with lots of interest in our bulk fuel offering.

Consignment Stock Service

Did you know we offered this service? It is becoming a very popular option with our customers as it provides structure and means you have the filters you need, when you need them.

We can visit your site to implement this system for you at no additional cost – meaning you no longer have to wait for parts and can be in full control of your filter spend.

Contact us today for more info.

Easter Opening Hours

Good Friday: Closed

Easter Monday: Closed

Introducing Our Charity Partner

This fantastic charity provides respite care to terminally ill children and their families across the South West. Their aim is to enrich the lives of sick children, providing support to their families and making the most of short and precious lives. We will be fundraising for them throughout the year, and Derek Campion, MD, kicked off our campaign by cycling the Devon Coast to Coast 102 mile cycle route. He raised an amazing total of £420.00 to go to this remarkable cause.

Well done, Derek!

Meet the Team

Our offices and warehouse in Avonmouth is home to many of the Filtration Ltd staff, but we also have a team of Technical Sales Engineers that cover the entire UK. Visit our website to find out more about the team.
